

Release Date: 2024/06/27

Version: 5.6.1

Downtime Expected: None

Virtual IPM Release Notes

Updates included in this release:

New Features:

1. Patient List View Changes

Bug Fixes / Updates:

1. Update Date on Monitor Report
2. Update Assigned Date Label
3. Update to RCI Comparison Date
4. Update to Progress Monitoring Graph(s) Date
5. Update In Progress Status Message

Feature #1 Patient List View Changes

Details:

1. This implements a new design for the Patient List view in the Clinician UI
2. Merged the **Date of Birth** and **Age** columns into 1 column
3. Removed:
 - a. The previously available column **Assessment Status** has been removed
 - b. The **Assessment Started** and **Assessment Completed** filters have been removed
4. A new column has been added called **Last Patient Activity**
 - a. The logic here reviews the Assessment Groups on a patient and notes the date when there had last been activity by the parent / caregiver in the parent portal
 - b. When compared to the Assessment Group delivery date, this will give a user insight on whether or not a parent has started filling out assigned assessments
5. Row expansion
 - a. This new feature allows users to expand each patient record row to view high level details around the last five assessment groups administered
 - b. When expanded, the following information will be displayed to users:
 - i. Group Type
 1. *This will specify if a Monitor or Predict had been administered*
 - ii. Group Delivered
 1. *This is going to display the date when the Assessment Group had been delivered*
 - iii. Assessments Completed / Assigned
 1. *This column displays the number of Assessments assigned in a Group, compared to how many have been completed*
 2. *If all assigned Assessments have been completed, the field will be highlighted in green to indicate it*
6. Column sorting has also been enabled for this view

Patients		
Patient	Date of Birth (Age)	Last Patient Activity ↓
Case4, Test	03/18/2021 (3 years 3 months)	03/18/2024
Group Type	Group Delivered	Assessments Completed / Assigned
Monitor	03/18/2024	1 / 1
Case3, Test	03/15/2020 (4 years 3 months)	03/15/2024

Update #1 Update Date on Monitor Report

Details:

1. The **Created Date** is being replaced with the **Completed Date** of the last completed assessment in the group
2. There will also now be a status of the assessment group under the report header. This will specify if:
 - a. The assessment group is incomplete
 - b. The assessment group is partially completed
 - c. The assessment group had been completed

Blue Testing - Monitor Report

⚠ This assessment group is incomplete

Anastasiya Test - Monitor Report

⚠ This assessment group is partially completed

The most recent assessment completed was ASDQ on 6/24/24, 7:21 AM

Blue Testing - Monitor Report

This assessment group was completed on 4/12/24, 4:30 PM

Update #2 Update Assigned Date Label

Details:

1. Updated the label from **Assigned Date** to **Delivered Date** across the app:
 - a. On the Monitor Report
 - b. On the patient list view
 - c. On the Monitor card
 - d. In the Parent Survey tab

See autismanalytica.com and instrument manuals for peer

Executive Functioning Scale

Delivered: 1/16/24, 12:20 PM **Completed:** 6/19/24, 3:08 PM

Group Type	Group Delivered	Assessments Completed / Assigned
